

# Vegan - Vegetarian

## CERTIFICATION STAGES

The duration of the Vegan or Vegetarian certification depends on the finalization of the certification process stages,

Receiving Application

Review

Evaluation

Audit

Certification

If any nonconformity arise during audit and as a result of audit, the stage of closing nonconformities approximately are 1 to 3 weeks.

This stage can be up to 2 to 13 weeks according to process and product structure

## Vegan - Vegetarian Certification

There are organizations such as IBI that register this culture and benefit this culture of life. These organizations can be either registration or accreditation or a non-governmental organization. The registration activities that will be done to products of the companies who requested certification by the registration organization, determining meeting / not meeting the requirements of the NSO-NAP 7 Vegan-Vegetarian standards/criterias, providing taking the products and production under the control and this activities and this culture and a set of transactions that give confidence to the consumer certificate are called Vegan-Vegetarian Certificate

Other definition of this registered and certification process is "licensing"

### How to Obtain a Vegan-Vegetarian Certificate ?

After the application stage that done by the manufacturer company to IBI, the proposal- contract stage is started . After the agreement to be reached in the bid-contract stage, the audit

Vegan-Vegetarian Certificate is given to the company whose audit and control stages has been concluded properly. ( By the visual and experimental methods to compliance due diligence activities controlling the production, product content and stages ). In short, the Vegan-Vegetarian Certificate certification process is taken in obeying with the workflow.

## VEGAN - VEGETARIAN CERTIFICATION

## VEGAN

The certificate which Rejected the animal meat consume and preferring or not preferring some other animal products excepted meat, consumer demands are put into production and the mentioned consumption habits are institutionally registered on product basis are called Vegan Certificate

"Accreditation is a reason for trust and preference"
